GIRL SCOUTS HOME AGAIN

Had a Delightful Time While At Camp In Fairfax County.

RECALL HAPPY DAYS

List of Prizes Awarded At Close of Camp—Thanks Tendered for Treats While In Camp.

Although the Girl Scouts have been back from Camp almost a week there are many pleasant reminiscences that still cling. Some of these were the delightful campfire parties, two being ice cream, one watermelon and two roasting marsh mallows. At some of the parties, guests were present, including parents nad friends and even distinguished out of town people.

No girl in the troup can ever for get the delightful serenade given by some clever ex-service men who had seen stiff fighting "Over There," on the Marne front. To the accompaniment of their own little orchestra, they sang all of the girls favorites as well as the usual "glee" songs. On this night also was present the famous Judge Brown of Utah, nationally known for his work with children and at present engaged in this part of the country in making a survey for the United States Government.

Another very enjoyable night was "Stunt" night when evry Scout did something. Among the distinguished performers were: Gladys Hohenstein, who gave quite a number of interesting athletic feats; Thelma Allen, who presented interpretative dances in "costume impromptu" Mae LaPorte and Dorothy Eidhammer in readings; little Ann Blount in a recitation; and many others in original and impromptu performances. The original songs and choruses composed by Audrey Allen and others showed indications of budding genius.

Games were another prominent feature of the campfire parties. In the regular daily games, the Alexandria team had the highest score in volley ball and the Snowden team in pass ball.

The Girl Scouts especially wish to thank Mr. and Mrs. Baylis for an ice cream treat, and Mrs. Wheatley for a watermelon treat also Mrs. Fawcett for candy.

At the close of camp, the following prizes were awarded:: For best scouting spirit displayed in camp, Katherine Sloane; for swimming race Sarah Chilcotte; for excellence in physical culture, Ruth Rudd. Elizabeth Eidhammer won a beautifully illustrated manuel of wildflowers for the largest and best collection found on a wildflower hike of one hour. At the end of this time she had collected forty specimens, eighteen of which she was able to name. This prize was generously given by Mrs. H. B. Caton whose untiring efforts and hard work largely contributed to make the Girl Scout Camp a success.

Services To Be Resumed Sunday at M. E. Church

Regester, pastor will preach. At 9:30 o'clock the Sabbath School exercises will be held and will be in charge of J. Frank Myers, superintendent.

The work done at the church included frescoing the interior of the edifice together with the vestibule and halls and lecture room. The organ has been revarnished and a new indirect lighting system installed. The contractors were Winter and Company, of Washington, and Dunn and Montgomery, of this city.

ORDERED OUT OF CITY

Crestfallen and apparently friend less, a colored man giving the name of A. Jones, was made to face the bar of justice this morning on a charge of drunkenness at Union Station yesterday afternoon. According to the police every train that passed, he would ask, "Does this train go to Richmond." Finally along came a train for Richmond and in his condition he made a futile effort for the "side door Pullman.'" His arrest followed: Mayor Duncan made him happy when he asked: "If I let you go can you get out of the city in half an hour." "I certainly can; thank you," said Jones with his countenance beaming as he left to shake the city's dust from his feet."

TROOP GO TO LOGAN W.VA.

Will Disperse Armed Bands of Miners In Mingo County.

EXPECT MARTIAL LAW

Situation Appears Critical—Airplanes Bomb Miners Today—Bombs Fall Near Houses.

Federal troops were today ordered into West Virginia to disperse the armed bands of miners who are threatening an invasion of the Mingo county coal regions there.

Major General Harbord, chief of staff, announced that he has ordered the Nineteenth Infantry from Camp Sherman, Ohio, and the Twenty-sixth Infantry from Camp Dix, N. J., to proceed immediately to West Virginia in response to a request from General Bandholtz, representative of the President in Weset Virginia.

General Harbord stated that he had taken the action without awaiting the proclamation of martial law.

The troops entrained about 4 o'clock this morning, General Harbord said.

General Harbord announced that the proclamation of martial law has not yet been issued, and indicated that it probably would not be promulgated until later in the day. The lack of a proclamation of martial law will not interfere with the movement and operation of troops, General Harbord said.

Logan, W. Va., Sept. 2.—Aerial bombs were dropped by Logan defense airplanes early today.

The TNT bombs caused a hasty retreat in miners from the Hewitt's creek concentration, but no casualties, according to observers, were reported.

The bombs fell near houses occupied by the "red necks" army.

Norfolk.—One of the biggest shifts in assignments of patrolmen ever ordered by the head of the police department went into effect last night. It involves forty-two men and every precinct in the city, including Berkley. None of the sergeants, lieutenants or captains are changed, and Chief Borland said today the shifts have no significance. It is simply carrying out the policy of the department, he said, of not keeping any one officer on any one beat too long.

Norfolk.—What may mean the inauguration of regular cargo sailings from Norfolk to French ports has been made possible by the completion of arrangements for the steamer Strathlorne, of the French line, to call here for cargo on September 8. If the venture proves successful, it is regarded as probable that the French line, as the Compagnie Generale Trans-Alantique is known, may establish regular monthly sailings to Havre and other ports in France. For the past twelve months Hampton Roads has had no regular sailings for French ports, although up to a year ago a considerable amount of cargo, chiefly cotton, was handled direct from this port.

COLUMBIAN PLAYERS

Will Spend Sunday And Labor Day At Camp Columbus Leonardtown, Maryland

The Columbian Players have made all arrangements for an exceptionally "big day" over Labor Day. Through the courtesy of the Xaverian Brothers, the Columbian Players will motor to Leonardtown there to enjoy all the facilities and attractions of Camp Columbus, situated on a spot said to be as beautiful as any along the lower Potomac River Leonardtown has for many years been the site of Camp Columbus, operated under the auspices of the Xaverian Brothers for young boys and this year there were upwards of one hundred boys who enjoyed throughout the months of July and August the pleasures of the camp. The camp for boys was formally closed on August 28th, but the Xaverian Brothers have offered to keep the whole camp intact until after Labor Day for the benefit of the Columbian Players.

It will be remembered that the Columbian Players recently spent a day at Benedict Maryland, and while the occasion as particularly enjoyable, it is believed that the two day feature of the Leonardtown outing will make it even more enjoyable than the one held at Benedict. The bathing at Leonardtown is ideal and there will be a variety of pleasures in the form of boating, fishing and crabbing. The party will leave Alexandria shortly after the seven o'clock mass Sunday morning, and will return around midnight on Labor Day. In addition to the players it is understood that a number of the players' parents will take in the outing. On the evening of Labor Day the dance committee for the occasion has completed plans for a big dance which will be held in one of the permanent buildings of Leonardtown.

WASHINGTON DAY BY DAY

(From Our Special Correspondent.)

Washington, Sept. 2.—President Harding cast a bombshell into the advocates of disarmament and reduced armies and navies when before the students of the Army War College, he declared:

"No matter where the best aspirations of the world may lead us, there may never be a time without the necessity for armed forces."

Coming on top of the forthcoming conference on disarmament and Far Eastern questions scheduled to open in Washington on Armistice Day, November 11, the utterances of the President caused somewhat of a sensation. While the President made it very plain in the course of his remarks that he was hopeful that all the nations of the world would make an effort to reduce their armies and navies, he declared that it is perfectly futile to think that there never will be armed conflict in the world.

Despite the fact that the State Department insists that no settlement of the Yap conroversy has been effected, the Gazette correspondent is assured positively from Japanese sources that a tentative basis for settlement has been reached that apparently is satisfactory to both the United States and Japan. It is explained that Secretary of State Hughes and Baron Shidehara, Japanese Ambassador, have been able to arrive at what seems to be a fair settlement of the controversy, and that this plan of settlement has been cabled to Japan for acceptance by that government. Formal approval of the settlement plan by Japan is all that remains to be done.

On August 23, 1921, there were 491,399 freight cars idle on American railroads owing to business conditions, according to a report made public today by the Car Service Division of the American Railway Association. This was a decrease, however, of 8,195 cars compared with the total on August 15.

The car shortage which has been reported in certain localities principally because of increased demand for grain cars is gradually disappearing, the total on August 23 being 1,376 of which 1,275 were box cars compared with a total of 2,125 on August 15.

Minnesota farmers, for the year 1921, are earning only about fifteen cents an hour for their labor, an amount insufficient to pay operating expenses, taxes and interest on their indebtedness, according to a report made to the Interstate Commerce Commission by M. O. Lorenz, chief statistician of that body.

This report was compiled in connection with the application of western farmers for reduction in the freight rates on grain, grain products and hay. The Commission wanted a computation as to what freight rates would be necessary to enable farmers to earn as much per hour as, for instance, railroad employes. The remarkable conclusion was arrived at that for the farmers of Minnesota to have earned as much as the average railroad employee, not only would it have been impossible for the farmer to have paid any freight at all on his products to the primary market, but railroads would even have had to pay the farmer a bounty that would have been as high as 23 cents a bushel on his wheat.

Captain Holmes, in command of the Presidential yacht Mayflower has been entertaining the Washington correspondents who cover the White House at luncheon during the past month or more. The correspondent of the Gazette was one of those invited yesterday and the affair proved to be a very enjoyable occasion. After a very elaborate repast had been served in the small dining room on the Mayflower, Captain Holmes conducted his guests through the ship, pointing out where the President and Mrs. Harding have their private quarters during their cruises down the Potomac and to other points. While the Mayflower is seaworthy in every respect it is always deemed wise to have a number of destroyers act as escort whenever the yacht passes outside the Capes.

TODAY'S THOUGHT My days among the dead are passed; around me I behold, where'er these casual eyes are cast, the mighty minds of old; my never-failing friends are they, with whom I converse day by day.

OUR CHAMBER OF COMMERCE

An item in Wednesday's Gazette, in the news columns, is worthy of more than passing attention. We refer to the meeting of the Directors of the Chamber of Commerce, on Tuesday afternoon. The meeting was apparently one of general interest to the entire membership. The establishment of the ferry service between this city and the Maryland shore at Fox's Ferry is of such preponderant importance to this city and its twenty thousand people that its initiation will mean the turning of a new leaf in the history of Alexandria. We know of nothing on the near or distant horizon that portends such a degree of prosperity to our citizens. The opening up of miles upon miles of fertile truck-gardens to our own markets means greater health to our people and an additional and powerful incentive to others to make a home in Alexandria. The affording of free and facile access to our stocks of merchandise, equal in display, variety and price, if not in size, to those of Washington. The creating of a new metropolis, with its Great White Way brilliantly illuminated at night; our enterprising Moving Picture Houses; our beautiful park—to come sometime in the future—with its band of music; our municipal wharf built out into the breeze-laden waters of the Potomac; our other attractions which will arrive in due sequence; all these will go to make a new Alexandria;—a more prosperous and thriving Alexandria; a greater Alexandria that shall be known nation-wide as the Gateway to the South; the Queen City of the Old Dominion; unrivalled in its historic attractions; and without superior, midway between the north and south, as a resort and resting-place for the traveler.

At the same meeting were taken up other matters of great importance to Alexandria, and an address was made by a Richmond visitor in behalf of good roads.

The query the Gazette wishes to make, is: Why cannot the whole membership enjoy these sessions? Why not have a meeting of all the members oftener, say at least six times a year? We send our reporter almost daily to get the news of the activities of our most important civic body, and print whatever is vouchsafed for our information! Our columns are at all times open to it—news and editorial.

The Chamber of Commerce has some five hundred members and they are entitled to all the news all the time. The Gazette is the only means of publicity unless the meetings are held oftener and thrown open to the entire membership. It is not enough that the different bureaus work on their particular matters; the Chamber, to function most efficiently, should have unanimity of action in the whole body.

We congratulate President Smoot on the good work of his administration thus far. We are fully convinced that he will put over the Fox's Ferry project during his present term of office. We are likewise sure that he will agree with us that the entire membership should convene oftener. The present magnificent showing is largely due to his untiring efforts last spring. The enthusiasm has not diminished one whit; but it should have a more frequent opportunity to express itself.

HIGH SCHOOL MOVIES

All those interested in the acquisition of a motion picture projector for the High School are invited to attend the exhibition tonight at the auditorium of the Chamber of Commerce. The style of projector that it is purposed to acquire, will be used and a number of very interesting educational films exhibited. The plan is in operation in dozens of other cities no larger than Alexandria, and it would certainly be a valuable educational aid to our own schools. The public-spirited citizens who have the matter in charge are to be congratulated on their active interest in the welfare of the city's school-children. It is hoped that there will be a large attendance tonight at the Chamber of Commerce.

WOMEN, MEN'S SUPERIORS

(For the Gazette.)

Women's intuition is greater than that of men.

Women are less sensitive to pain than men and actually feel less of it in a given operation.

Women are more modest and spiritual than men, and, therefore, less prone to acts of immorality.

Women are more symmetrically formed than men, and, therefore, are more graceful and beautiful.

Women go to sleep less quickly than men, but sleep more soundly, and if in normal health, sleep longer.

Women are more sharp-witted than men. The reason is that their thyroid glands are, as a rule, more active.

Women are men's superiors when it comes to feeling the cold. They can remain in bathing longer and suffer less from exposure.

Women stammerers are fewer than men stammerers. There are only about one-fourth as many women who stammer as men thus troubled.

IN MEMORIAM

SUTHARD—In sad but loving remembrance of our dear daughter, VIRGINIA, who left us 7 years ago today September 2, 1914.

This solemn date is here again,
O how it fills our heart with pain,
Seven years ago this very day
The messenger summoned our dear daughter away.
Home at rest, so sweetly sleeping,
In thy Saviour's tender care
Wher there is no pain or sorrow
None on earth can harm you there
She'll sleep until the morning breaks
On that golden shore,
Then we'll be there together
Where parting is no more.

Her devoted Father and Mother.

EDITORIAL

"It Pays To Dress Up"

Attracted by an advance showing of winter coats, tastefully displayed in one of our big display windows this week, a lady came in the store, asked the price of the coat that had particularly appealed to her tried it on and purchased the garment.

When asked whether or not she resided in the city, she replied in the negative, saying that she was a resident of Washington and, as she was entertaining some out-of-the-city guests, they had motored to Alexandria to view the historical points of interest here.

She stated that she had been at once favorably attracted by the beautiful window display, that she had determined upon a closer inspection, which resulted in her discovering the very kind of coat she had decided upon buying for the coming winter and had subsequently bought it.

She complimented our store on the manner in which the decorations were arranged in the windows and the evident quality of the merchandise so displayed.

We do not repeat this for self-praise, but to show the results that can be expected from good display windows and tasty decorations.

MORAL: Even Washington people can and do appreciate the values that are offered by Alexandria stores.

POLITICS.

As some of Mr. Madison's friends and admirers have affected to doubt the truth of Congress having made him a present of 14,000 dollars to buy new furniture, in addition to the 25,000 dollars he receives a year for his services—and moreover, that even if Congress had granted it, he was too genuine a patriot to accept it in these hard times when money is so scarce—for the information, then, of all such unbelievers, as well as of the public at large, we here present them with the law itself as published by authority in the Intelligencer, signed by Mr. Speaker Clay, Vice-president Gerry, and approved by Mr. Madison himself. After this there can be no further doubt on the subject, and Mr. Madison's friends will have to find some other apology than denying the fact, for his accepting so large a sum, at a time when the country is suffering under the evils of war, to which in a very few weeks after the fall elections are over, are to be added a long list of taxes.

Leopard Cannot Change Spots

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynimite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel billious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

Ladies, Allow Us To Introduce

Dr. Kahler Shoes

THE SHOES THAT YOU HAVE LONGED FOR

Kahler shoes are built on specially constructed lasts, developed and improved as a result of over 67 years of scientific study of the human foot. They are an institution, older than the Statue of Liberty or Brooklyn Bridge, yet always new in their conformity to correct standard or good form. The Kahler shoe is built along scientific principles over specially designed lasts to give restful support to arches that give way under the strain of walking or standing. They are for people who desire a shoe with plenty of toe room, glove-fit from heel to tip and pleasing lines.

The first drawing illustrates the Straight Line and Combination Last. The Combination Last is two widths narrower at the heel and instep than across the ball. The snug heel prevents the heel from slipping. The Straight Line Last allows the foot to retain its normal shape without the distortion of the toes that produce bunions.

The second drawing illustrates the Cupped Heel Seat and Metatarsal indentation. Your foot sinks into a comfortable socket at the heel, so that instead of slipping forward it is held firmly and snugly in the proper resting place, insuring an evenly balanced step.

Just beneath the arch of the foot, hidden between the flexible leathers of the sole, is a handforged springy tempered steel shank. This allows full muscle movement and offers gentle support to fallen arches and flat feet.

The bottom illustration shows how lacing draws up the arch, and keeps the foot from slipping forward.

When you first see Dr. Kahler Shoes, their smart look will make you wonder how these wonderful features have been combined into such stylish looking shoes, but slip a pair on, have them laced up, and Oh! what contentment! Come in and try on a pair of Dr. Kahler Shoes—You will then realize why they are "The Shoes You Have Longed For."

VETERAN OF CIVIL WAR STILL HALE AND HEARTY

George D. Shaw, Springfield, Mass.

"To say that I feel twenty-five years younger, twenty-five years healthier and twenty-five years stronger expresses what Tanlac has done for me better than any other way I can put it," said George D. Shaw, veteran of the Civil War, who now lives at 321 Walnut street, Springfield, Mass.

"I am now seventy-eight years old and I don't hesitate to say I have never known a medicine to equal Tanlac. For fifteen years I was subject to attacks of indigestion that were so bad at times I would have to lay up for a week or two. For a long time I lived on crackers and milk alone as nothing else agreed with me.

"When I started on Tanlac I weighed only one hundred and seventeen pounds and my days were thought to be numbered. I've been so wonderfully built up, I now weigh one hundred and forty-three pounds and my stomach is as sound as a dollar. In fact, I believe I could eat the old army rations again without it hurting me in the least.

"I never miss a chance of saying a good word for Tanlac and I would like to urge the boys of the "Sixties' who are not feeling right to give it a trial, for I am sure it would put them in line again just as it has me. For a man of my age to have no physical ailment, to be well and strong and enjoy life as he did twenty-five years ago, is certainly something to be thankful for and there is nothing too good I can say for Tanlac."

Tanlac is sold in Alexandria by Edgar Warfield, Jr.

GIRL SHOT FROM AMBUSH

New York, Sept. 2.—State troopers tonight are searching the woods near Armonk, Westchester county, for an unidentified man who earlier in the day fired a rifle bullet into the base of Miss Alice Agnew's skull, while she was riding with her brother. Miss Agnew is a daughter of Cornelius R. Agnew, wealthy banker.

At Presbyterian hospital here the bullet was removed, and it is said Miss Agnew will recover.

Rae Agnew, her brother, said they were galloping along near the outer edge of their Wenga farms estate when he heard a shot from the woods. His sister fell from her horse. He summoned help.

Do It Now!

So many coal consumers have delayed putting in their Winter coal this season that there will be an urgent demand when the weather gets cold which will make it impossible for the mines to produce, the railroads to haul or the dealer to handle all orders as satisfactorily as the trade will want.

It is our advice to all consumers to enter their order now and have their coal put in as promptly as possible.

New Slippers For Autumn

No sign of abatement in the high standards of beauty set for women's footwear a season or so back. Charming, dressy strap slippers are developed in satin and suede in black, brown and grey, simply fashioned for the most part, the more extreme numbers having a garniture of beadwork, cut steel or rhinestone ornaments. Louis 14th and Baby Louis heels.

The shoe that mothers have been looking for. A shoe for baby that supports the ankle and keeps the little legs straight and shapely.

Fall Oxfords of Beauty

Graceful strapped oxfords for the street will share honors equally this winter with the laced models that are being shown for the colder weather. We can serve you with either style in the very popular brown with military or English heels. There is a style of toe also to suit any woman and wide range of sizes.

Bal strap oxfords with military and flat heels. The shoe that is so popular for the growing girl. Brown only.

SHOES FOR BOYS AND GIRLS

School Shoes

It is almost a pity the little folks can't go barefoot to school, as shoes wear out so much faster than feet. But so far as leather can answer the purpose, we believe the special school shoes we are showing for girls and boys do the best job that can be done.

Boys Shoes

Sensible shoes for active young feet. The boy will like their comfort and their good looks. You will approve of their good quality and their reasonable price. Made on a common sense last, put together with extra strong seams eyelets that keep their place, sturdily built and mannish looking.

MEN'S FALL and WINTER SHOES

For the man who wisely insists upon keeping his feet happy, there are some interesting numbers in our new line of shoes. Genuine tan grain high top shoes blucher cut with overweight sole, that's a wonder for tramping, laced Norwegian high shoes with heavy soles and rubber heels, easy as the old army shoes you used to like, but snappy in styles. Extra good quality distinguishes these new shoes while prices are easy on the pocketbook.

PLEASING LACED MODELS FOR WOMEN

Snappy laced boots for the discriminating woman are here in profusion and prices are moderate considering the market today. They come in the very fashionable browns, plain toe or brogue effect, with military or English heels. These are the shoes that are chosen by the woman who wishes comfort during the colder months. Come in and inspect the new styles for winter and we are sure you will become a customer.
